In-person

Build your organization's in-house training capacity with a standardized fall protection program aligned with CSA standards for equipment and training.

STANDARDS

CSA Z1009:22, Management of Work at Heights
CSA Z259 series

Instructors who teach with Haland materials deliver NCSO recognized training.

What happens in the 4-day program?

DAY	FOCUS	YOU LEAVE WITH
01	End-User Training	Fall Protection User Certification + firsthand experience of the complete end-user curriculum
02	Technical Foundation + Instructional Skills	Technical mastery + a structured approach to adult instruction
03	Instructional Skills + Practice Delivery	Two coached rounds of practice delivery
04	Instructional Practice	Instructor Certification + the confidence to deliver from Day 1

What's included

12 Student Activations*

Lesson Plans

Digital Presentation

Final Exam Answer Key

Fall Protection User Certification

Your personal certification, earned on Day 1

Fall Protection Instructor Certification

Your instructor credential, earned on Day 4

* Each activation includes a unique certification number assigned to the training provider, a student manual with the certification number printed on it, a digital certificate with that certification number issued from the Certification Management Platform, and a temporary physical card, for same-day jobsite proof if needed.

RENEWAL

\$795 per instructor. Every 3 years, or when an instructor teaches fewer than 3 classes in a year.
